The best preparation for studying in Germany

German International College

GERMAN INTERNATIONAL COLLEGE

We support you

German is the key to employment in Germany. The German International College offers excellent preparation for your studies in Germany. In intensive courses you will be prepared in the language of your study which will be German or English. Furthermore, based on your needs, you will learn and improve the knowledge you need of Mathematics, Physics or Economics and TestAS preparation.

Each year young people from around the world are prepared for their studies in Germany. In cooperation with German universities as well as other partners we arrange your accommodation and assist you with administrative matters (registration, visas, etc.), organize your language courses and further lessons and support you with any kind of questions and problems.

After successfully graduating from our programme you will get access to a university education in Germany. Depending on your choice of study programme, the German International College will provide you with an intensive support in developing your language skills either in German or in English.

Our partners

Studying

We offer high quality education. Our special curricula and highly qualified teachers bring our participants to CEFR level C1 within one academic year depending on the level of German knowledge you come with and the time you arrive. It is not possible to attain that level in the same time frame and in the same quality just with language classes in your home country.

We are academically linked to universities. Consequently, our education services are far beyond pure language courses. Our course content is closely coordinated with the universities at which our participants will study. Quality is paramount. We are an academic institution.

We offer courses according to your field of studies and needs e.g. German, Mathematics, Physics and preparation for TestAS. After successfully participating in the German International College Programme we guarantee access to a cooperating university.

After the preparation year you will participate in final exams and/or language tests. By passing the examinations you will be granted admission and a study place at a cooperating university.

Living

Our students live in the dormitory in Kleve (Bedburg-Hau) right next to the school building. You will have access to our wireless network in your furnished single room. Our employees will help you to adapt to the German lifestyle and will support you for all necessary steps in Germany, e.g. registration at the foreign ministries, opening a bank account, etc.

Showers and toilets are in the corridor of each floor. Furthermore, each floor has kitchens and dining rooms, which you can use to prepare your meals. Lounge/TV-room, billiard room, as well as washing machines and dryers are available in the basement of the dormitory.

Location

Experience the European way of life during your studies in Germany. Kleve (Bedburg-Hau) is located in Western-Europe. You can discover the surrounding cities and countries by train, bus, car or plane.

The Lower Rhine is one of the most popular cycling holiday regions of Germany with the longest marked cycle paths. In general, the location of Bedburg-Hau is perfect for trips in Europe. Weeze Airport is only 20 kilometers from Bedburg-Hau from which regular flights heading towards all major European countries such as France, Great Britain, Spain, Italy, Portugal, etc. By train you will quickly reach Amsterdam, Paris, as well as the beautiful German cities like Cologne, Düsseldorf and Aachen.

Services

The German International College offers different programmes to prepare you for your study in Germany.

Depending on your needs, your study programme, your school leaving certificate and your language proficiency, the following services will be included:
